

Dear Arvin,

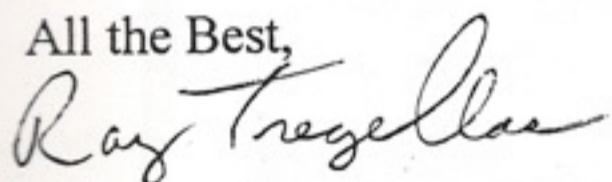

I just wanted to send you a note to express appreciation for all your wonderful work over the past several years. Your program "Drumming For Success", in particular, is extremely impressive. Offering young people a positive activity such as percussion to enhance their lives is worthwhile in itself. However your approach to using the activities as a means to increase self esteem, improve school work habits and increase the level of talent they may display in many areas of their lives is outstanding.

As Education Program Coordinator for Latin Percussion Inc., I am very pleased to be associated with yourself and to be able to contribute to your most worthwhile programs. I only wish that there were more programs such as yours.

Your commitment to developing percussion skills is extraordinary, as demonstrated in the recordings you have produced. Thank you so very much for all your efforts to share your knowledge and passion for drumming with others in such a positive way.

I look forward to our continued relationship and to supporting your fine work for years to come.

All the Best,

Ray Tregellas
